## EXPERIENCE

---

### **ENVIRONMENTAL CONSULTANT**

DECEMBER 2017- PRESENT

Currently carrying out the following for Hodkinson Consultancy:

- Code for Sustainable Homes assessments
- Code for Sustainable Homes QA
- Health and Safety assistance

### **DIRECTOR – HODKINSON CONSULTANCY**

APRIL 2008 – NOVEMBER 2017

An EcoHomes, Code for Sustainable Homes and BREEAM Domestic Refurbishment consultant, I advised design teams on how to meet tough environmental standards in challenging circumstances.

In addition to the consultancy work in environmental certification, I also prepared Planning Sustainability Statements and advised on accessibility, Environmental Management and Construction Management Plans for Listed Buildings and bespoke developments.

As part of my role as Head of Governance I documented, implemented, maintained and continually improved the Quality and Health and Safety Management Systems, as well as overseeing the implementation of the Environmental Management System of the company.

At the time of my departure, I was working towards gaining the OHSAS 18001:2007 and renewing our Safemark Accreditation – which we obtained.

### **SENIOR NURSING ASSISTANT – OAKVIEW HOSPITAL**

SEPTEMBER 2001 – MARCH 2007

I worked in a medium secure adolescent unit for young people between the ages of 11 and 17 who could not be managed in any other environment.

The patients had a variety of needs and a wide range of complex mental health, emotional, social and behavioral difficulties, some of the young people presented with extremely challenging or risk seeking behaviours.

I was actively involved in their care and care planning which included assessing, monitoring and supporting them as well as addressing their individual needs.

---
